A message from your Board...

I'd like to start off this month by reminding you of our Unified Vision Design and Architectural Presentation, scheduled for October 6th at the Palm Aire Country Club. It should be an interesting afternoon and you all have a stake in the direction our community takes. See you there!

Speaking of the Unified Vision project, we had a lively discussion at our September Board meeting. I always know we have something interesting to discuss when my regular Front Row ladies group shows up in force and fills that front row. In any event, the hot topic was the Unified Vision project. This topic has obviously struck a chord among the membership and we got the message that several of the attendees at that meeting had made up their minds that they did not want any changes here at LRF. Speaking on behalf of the Board, we are a little surprised by their early rejection of the Unified Vision project since no actual changes or modification to the current Amenities center has yet been suggested. The purpose of the Presentations on October 6th is to initiate a dialogue and kick around ideas, not to vote on any final plan. At least the discussion, although "lively", remained civil.

Which brings us to an issue that concerns all of us, that is the way we treat each other here at LRF, in a word, "Civility". Recently I've noticed a change in the level of regard some members of the community display toward others and more importantly, toward the association's employees. In January of 2010, and again in April of 2012, my predecessor on this Board found it necessary to write his entire column those months about Civility. Unfortunately, it's again time to revisit the topic. My predecessor defined Civility as "courtesy, politeness, manners, the Golden Rule". In the context of expectation from senior citizens (like us). To listen. To allow others to express their opinions without interrupting them or calling them names. Express your opinions in a friendly, non-accusatory manner. Clean up your own mess. Only take things that are yours. "Expect others to be civil." My favorite quote from both articles, "you have heard people say at my age, I don't have to wait in line or something similar. Being a senior citizen does not excuse you from using good manners or entitle you to be impatient and uncivil...uncivil behavior is no more acceptable at 65 than it is at age 5." I wonder if the fact that Grover's two columns were around the time of our last national election and that the timing of this would have anything to do with

the way that today, it seems acceptable for those that would be our leaders are trashing each other shamelessly in the public forum. If bad taste is okay for them, then it's acceptable for all of us? I don't think so.

We make decisions on how to treat each other as residents, we get push back, and we live with the results of our actions. But we also have people on the property who are not residents, but vendors and employees and do not have the luxury to defend themselves against someone's bad behavior as a resident does. I would remind our readers that the two association employees are answerable to the Board of Directors, not to residents personally. The 399 residents here at LRF are provided a bundle of services. You are in effect "Customers", not the Community Assistant or Property Manager's "Employers". The Board sets policy, the Property manager, manages and very little that he does is not under the direct supervision of this Board. The violation letters some of you receive from the manager are with the full knowledge of the Board. It is the manager's job to carry out policy. Our policy is to enforce the rules equally with each resident. We expect compliance and/or a civil response in return. We may not agree, but we can be civil. We do not expect that either we, or our manager, should receive emails or verbal complaints against vendors or other residents in indecent language or form, or as part of nasty tirades. We do not expect the manager to have residents point fingers and personally attack him. For example, after an ARB or landscape request is not approved saying he made or influenced the decision. We do not need residents calling for immediate action, regardless of real urgency. An example, during the middle of storm Hermine, a resident advised he had a tree limb down in his backyard and demanded it be cleaned up by that afternoon. We do not need residents routinely just bursting into the front office and interrupting ongoing business because they don't want to wait, or because I'm old enough to do what I want. We don't need residents who don't clean up their mess after they are done eating and playing cards or another activity in the clubhouse. That should be enough to get the idea. Civility!

I ask that you please think about how we treat each other day in and out. I know the above description does not represent the majority of our residents, but it represents a significant number to necessitate this reminder. I ask you all to rethink how we can retain civility within our community and demonstrate our maturity in a positive way. For some of you, please rethink the way you interface with the Association's employees. Thank You.

Remembering Diane Shanos

1:00 at Palm Aire Country Club

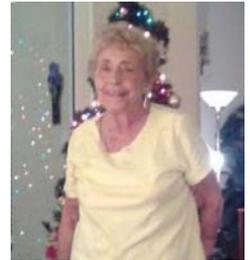

for an

**ARCHITECTURAL
PRESENTATION**

Re-think what the LRF
Amenity Center is going to be!

On Friday, September 16th, the community lost a neighbor, a Board member, an organizer of trips and activities, a member of the Social Committee, patron of the Art League and a friend. It's hard to find someone in Lakeridge Falls who did not know or interact with this gracious Lady.

When Alice and I moved here ten years ago, we met Diane through the Social Committee and enjoyed the interaction we had both in the activities themselves, as well as in the planning and set up where, in my opinion, you really get to both work with people and get to know them.

We enjoyed a few Ship n' Shore trips that Diane had planned and sponsored as well. She was eternally upbeat although it was obvious she had, and continued to experience serious health challenges. She was not a complainer. Quite the contrary, she was one of the most upbeat people I have ever encountered here, or in the past. Knowing how fragile her health was, I was surprised last year when she ran for the Board of Directors slot and was subsequently able to meet all the challenges that necessitated.

Diane was very supportive of my running for the Board this past year, and I looked forward to working with her on a different level than we had previously, but it was not to be. As most of you know Diane tried to stay involved and looked forward to returning to her Board duties up until last month when she was finally able to be present for the mid-August meeting. I had kept Diane up-to-date for the past six months, month by month. I would email her what I thought she needed to know, I visited with her to discuss specific upcoming issues that she was concerned about, and I know how hard she tried to make all those meetings. Generally, a day or so prior to the Board meetings, I would get her call that she was just not up to tomorrow, but definitely next month. Alice and I visited Diane three days before she passed at the Tidewell Hospice cottage. She was comfortable but she knew exactly what was happening. We had a good visit and at one point when Alice was out of hearing, she turned to me and said: "I was thinking, maybe I should resign?" I smiled and said "why give up now?" She thought about it for a second or two, and came back with: "It would take a miracle..., but you're right, why now?" The community and Diane's friends lost a very special Lady on Friday.

Dick Dorn, President
LRF Board of Directors

*Lakeridge Falls extends its 'sympathies

Kariba Lake Terrace resident,

Diane Shanos

The Community Relations Committee will be again hosting a "Toys For Tots" drive starting in November thru December.

Please drop off UNWRAPPED toys in the Clubhouse. A container will be provided.

Property Manager's Report

by Oded Neeman

Backflows – This passing month, most members received a letter from Manatee County requiring them to test their backflows within 30 day. If you didn't hear from us, please ignore the letter. Reason why is because the Association contracted, as reported last month, with The WaterWorks, a certified and a licensed plumbing company, to perform this task for you. Unlike previous years, LakeRidge Falls initiated the certification project in advance of Manatee County sending their reminder notices. So by now, we know how many backflows failed the certification process.

Following their inspection, The Waterworks informed us that 27 backflow preventers, out of 399, did NOT pass the certification process. Five backflows preventers, they reported, passed but require additional attention because they are leaking. Therefore, we sent 32 notices to all those members whose backflows failed or needed attention. If you are one of those who received a notice, please make sure to correct the matter. Please note that you can use any certified plumbing company for this task. This in mind, **please do not ignore this issue!** If you fail to fix the backflow following the notice we sent, Manatee County will hire a plumbing company to correct the matter on your behalf and charge the cost of doing so by adding it to your next water bill.

A couple of points to remember, it is common practice by certified backflow testing plumbing companies to install tags on each backflow after an inspection is concluded. However, please note that these tags are not required to be installed per the certification process. They are simply an advertising tool used by most of these companies to help residents locate their contact information in case an issue ever arises with the backflow. So please note that having or not having a tag on your backflow does not mean you passed or failed.

Also note that failing or passing a backflow may be a subjective matter. There are some situations that are not clear cut and are open for interpretation. This usually happens when wear is discovered in one of the backflow's elements. While one company may feel this wear warrants a repair (i.e. fail certification) another may suggest waiting a little bit longer before performing the repair (i.e. pass certification) and vice versa. In these situations, residents might be left uneasy, thinking the vendor might have provided them with a false report. However, please understand that this is not the case. The WaterWorks goal is to ensure residents satisfaction while meeting the County requirements.

Landscape Process – Lately, we noticed an increase in the number of complaints regarding Bright View's performance. The vast majority of these complaints talked about Bright View falling short on their promises. Upon our inquiries to find the source of this issue and ways to solve it, we discovered that residents were addressing their landscaping concerns directly with Bright View while

bypassing LakeRidge Falls' office. We also found that some residents communicated directly with Bright View's Account Manager, Mr. David Juchnowicz, via his cell-phone and/or email. While residents brought valid points to the attention of the contractor, they were not following the community's Landscape Policy and Process. This may explain, at least partially, the source of their shortcomings.

Please understand that LakeRidge Falls established a Landscape Policy and Process years ago in order to assist in carrying out the Associations responsibility of maintaining the initially installed landscape. This was done to ensure a consistent community-wide standard. The policy, and process that follows, main goal is to ensure the grounds are maintained based on best practice, to establish quality control, and to stay within our financial boundaries.

The Landscape Policy and Process asks that residents complete a Landscape Service Request Form and submit it to the Property Manager. This is done for an obvious reason: to have a clear record of the request. You see, when you stop Bright View's Account Manager while he supervises his mowing and pruning crews, for example, one might think he is attentive and polite. However, his mind may be, understandably, in a different place. Beside the fact that such requests can be forgotten, expectations can get lost in translation. The Account Manager may interpret a request one way while a resident may expect something totally different.

Finally, the Landscape Policy and Process clearly states that the landscape contractor only acts upon direction from the Property Manager who provides oversight and coordination of all landscape matters and who operates under supervision of the Board Member Chairperson(s) for Landscape. This point is important to remember not because of personal ego but because without the Association would lose its ability:

- To remain within its budgetary boundaries,
- To ensure the community wide standard is met,
- To assure quality work is performed.

While some may argue differently, the fact of the matter is that the vast majority of the complaints resulted in situations where the Association was not part of the discussion. This is also true, as a side note, in cases where Bright View's Account Manager was sent by us to speak with a resident over one topic and promises were made over a different subject as the discussion took a different direction.

To avoid such cases and to sum this section up, we ask that you please fill out a Landscape Service Request Form so the request will be recorded clearly. This is also true on issues that come up following a discussion with Bright View representatives. Although we understand that filling out a written request can be time consuming, we ask that you please understand that we need to review the requests before any action can be taken so we can advise Bright View in advance if special circumstances are to be considered. Finally, by following the Landscape Policy and Process we can ensure the maintenance performed is done

Continued on Page 5

Continued from Page 4

within our financial boundaries, the community wide standard is met, and quality control is not lost.

Landscape – Staying on the same topic, a lot of maintenance work took place in the last couple of weeks. First, we had a couple of pruning crews on site performing the routine pruning schedule. While on property, we asked the crews to pay more attention to the hibiscus shrubs, some of which were overgrown. This was done based on best practice and in the best interest of the plants' health. Speaking of best practice, which relates to the topic above, we ask that residents do not stop the pruning crews while they are on site asking them, for example, to trim plant material based on want and/or need. We ask this mainly in order to prevent inconsistency in the pruning performances. As one can imagine, such actions interferes with maintenance of the community and more importantly with our Community Wide Standard. Therefore, we have directed Bright View crews to not accept any directive from residents and to execute without exception the pruning practice guideline which was composed by the Landscape Committee based on the professional advice of Bright View and what is considered best practice based on the University of Florida.

Also this past month, we had enhancement crews on site performing their routine work of replacing damaged plant and sod material. The crews also upgraded two large landscaping beds along LakeRidge Blvd. One large landscape bed across the street from the bocce courts and one large landscape bed around the lift station. As far as the landscape bed across the street from the bocce courts goes, the reason for the enhancement work was because a significant amount of Indian Hawthorns died. On the other hand, the landscaping around the lift station was improved because some of the Wax Myrtle became leggy, others simply died, while others had Brazilian Pepper Trees, an invasive species, imbedded into their root system, as can be seen in the picture below

These new upgrades were made possible thanks to the design provided by the Landscape Committee. The Committee reviewed several proposed designs by Bright View, altered them to better fit the overall look of the community, and approved the final drafts. As can be seen in the pictures below, I am sure all we agree these two enhancements will significantly add to the total beatification of the community.

On an unhappy note, we discovered during one of our inspections that one of Bright View mowers damaged some sod at three different locations in the community (i.e. as can be seen in the picture below). The mower operator should have known that mowing in such areas were not possible because it was saturated with water. In such cases, mowing should be skipped until the soil is dry. Speaking with Bright View management on the matter, we communicated that the Association will not accept such mistakes in the future and requested they inspect the property prior to mowing ensuring all grounds are clear for mowing. In addition, we made sure to hold Bright View accountable for their actions. A couple of days after the incident and after the soil was dry enough the damages were repaired, as can be seen by the picture below. The Association did not endure any costs for these repairs.

Updating Security Forms – During the latest Security Committee meeting, Mr. Tim Clark, LakeRidge Falls' Gatehouse Captain, informed members of the Committee that some residents fail to update their Resident Security Form on a regular basis. As a result, the Gatehouse does not have residents' current car information, approved guest list, and/or updated phone numbers. Based on Mr. Clark's account, there are incidents, for example, in which the Gatehouse is not informed in advance when a guest is expected by a resident. In these incidents, the Security Officer on duty would attempt to reach out to the resident in order to verify if she or he is expecting the guest. Unfortunately, because some of the phone numbers are not valid, they are left with no other choice but to refuse access which makes all parties involved unhappy. Therefore, please make sure to complete or update your security form and turn it in to the Gatehouse. You can find

Continued on Page 6

Continued from Page 5

an online copy of the security form at <http://www.lakeridgefalls.org/forms> or hard copies at the form station which is located right outside my office. Failing to follow this request may delay/deny the entry of a guest or a vendor or may result in disconnection of car clickers when unregistered vehicle attempts to enter the community. Following this simple procedure will ensure LakeRidge Falls will continue to be a safe place to live in.

Another Fraud Alert – Every so often we like to share fraud attempts that our residents have experienced. Our hopes are that by sharing such incidents we will help others to be better aware of such attempts thus avoiding them. The following is very important information regarding what seems to be a Florida Blue Cross/Blue Shield phishing fraud attempt.

The resident who brought this matter to our attention reported that “[w]ithin the last two weeks I have 2 text messages and one "live" phone call (not a recording) supposedly from Florida Blue Cross/Blue Shield. Each message claimed that they have changed systems and I have to re-register my credit card for monthly automatic billing, or they will cancel my health insurance next month.” To the question of how he knew it was a scam he replied by saying that “I know this is a scam because my wife and I have never had Florida Blue Cross/Blue Shield for any kind of policy.”

As suggested before, this type of scam seems like a very sophisticated type of phishing. The Federal Trade Commission describes phishing scammers as people who will impersonate as a business to trick you into giving out your personal information using email, text, or pop-up messages that ask for your personal or financial information.” To better help you understand the type of messages, here are a few the Federal Trade Commission provided as examples of this scam:

- We suspect an unauthorized transaction on your account. To ensure that your account is not compromised, please click the link below and confirm your identity.
- During our regular verification of accounts, we couldn't verify your information. Please click here to update and verify your information.
- Our records indicate that your account was overcharged, You must call us within 7 days to receive your refund.

Therefore, make sure not to click on links sent to you via text messages or emails even if the message seems to be from an organization you trust. If you receive a follow-up call, make sure not to provide any information and instead end the conversation and call back the institute using the numbers you get from its official website. Remember, a legitimate business will never ask you to send sensitive information through insecure channels.

Here are some more tips provided by the Federal Trade Commission to avoid a phishing attack:

- Use trusted security software and set it to update automatically.

- Don't email personal or financial information. Email is not a secure method of transmitting personal information.
- Only provide personal or financial information through an organization's website if you typed in the web address yourself and you see signals that the site is secure, like a URL that begins https (the "s" stands for secure). Unfortunately, no indicator is foolproof; some phishers have forged security icons.
- Review credit card and bank account statements as soon as you receive them to check for unauthorized charges. If your statement is late by more than a couple of days, call to confirm your billing address and account balances.
- Be cautious about opening attachments and downloading files from emails, regardless of who sent them. These files can contain viruses or other malware that can weaken your computer's security.

We hope you will find this information useful.

Manatee County Fire Dept Inspection – Last month, the Southern Manatee Fire & Rescue District performed a yearly routine fire inspection of the Clubhouse and Annex Building. They examined all the emergency exit lights, the extinguishers and the extinguisher systems, the fire alarm system, and some electrical components. Unlike past years, this year the inspector discovered that a couple of the emergency exit lights required minor maintenance work. Following this inspection and the report produced, the Board of Directors, rightly so, wondered why the Fire Dept inspector discovered these minor issues knowing a fire inspection was recently completed by Piper Fire Protection, LakeRidge Falls' Fire System Service Company.

We directed this question to Piper Fire Protection, which as a result sent their inspector to look at the matter. After a quick investigation into this issue, Piper Fire Protection realized their technician simply overlooked the emergency exits lights during their inspection. Owing to their mistake, Piper Fire Protection performed a complete and thorough test on all emergency exits lights and repaired the two minor issues discovered by the Southern Manatee Fire & Rescue District all at no cost to the Association.

This in mind, Piper's technician suggested we replace four combo emergency exit lights as a preemptive measure. For those who may not know, the combo emergency exit lights are those fixtures above some of the doors in the clubhouse and annex buildings with the glowing print EXIT and two lights on their sides. In a case of an emergency situation in the clubhouse, these fixtures provide egress signage with emergency egress lightings. Following this recommendation, the Board of Directors approved the replacement of four of the fixtures, which were replaced within a week of the approval.

New Sign – At its last meeting, the Board of Directors accepted a proposal by Sir Speedy,

Continued on Page 7

Continued from Page 6

printing and marketing services company, to replace the front sign of the community that says "A 55+ Deed Restricted Community No Soliciting." The issue was brought up after it was noted by members of the Roads & Grounds Committee that the sign was deteriorating. Following the acceptance of the proposal, Sir Speedy

manufactured, delivered, and installed, this week, the new sign. Below are pictures of the old and new signs.

On behalf of the LakeRidge Falls Community,
 the
 LakeRidge Falls Social Committee
 cordially invites you to join us at our TGIF

New Resident Reception

October 28, 2016
 5:00 p.m. - 7:00 p.m.

Please join us in the Grand Salon as we welcome new residents to our LakeRidge Falls Community. Bring an appetizer or dessert to share.

New Residents...just bring yourselves and meet your new neighbors and friends!

Social Committee News

by Alice Dorn

There were 38 guests in attendance at the August 26th TGIF. The event's theme was "Dog Days of Summer". The decorations, theme and the very nice assortment of appetizers were enjoyed by all. The event Subcommittee did a great job. Thank you for all your help in making this a success.

The Subcommittee for the upcoming, Annual "New Residents" Reception/ TGIF, which will be held on Friday, October 28, from 5-7 will meet again in early October to finalize the details. As was done in previous years new residents will receive a personal invitation to this event. As with all TGIFs, guests are asked to bring an appetizer to share with at least 6 guests. The *invited* new residents do not need to bring an appetizer. Our Social events are always "BYOB." The Social Committee will provide sodas and coffee, and for this special TGIF, we will also provide desserts. We invite all residents to come and meet your new neighbors.

Planning is also underway for our upcoming Annual Veterans' Day Tribute which will be held on Sunday, November 13th, at 2 p.m. LRF's resident and Veteran, John Sullivan, will be Emcee, and Lou Ann Hopkins will once again play patriotic music on the keyboard. ALL residents are invited to attend this very special event.

Our Holiday event is scheduled for Sunday, December 4th, at The Asolo Repertory Theatre. We'll start the day with a backstage tour, for the first 40 who sign up, followed by a catered luncheon by Morton's Caterers and at 2:00 p.m., we have reserved excellent mezzanine and orchestra seats for "Guys and Dolls" which is considered by many as the best musical comedy of all times.

The all-inclusive tickets, including: the tour, a full buffet luncheon, wine, tax, and gratuity go on sale starting Monday, October 10th at \$85.00 per person. (This is a slight increase over the last year due to The Asolo Theatre's increase in the ticket prices.) We urge you to reserve with Karen, as soon as possible, as tickets sell out quickly, and we have a limited number of seats available. Checks should be made payable to "The LRF Social Committee." The deadline for ticket sales has been set for November 16th. Last year we had over 70 LRF residents/guests attend this very exciting event, and we hope for an excellent turnout for 2016.

Due to the Social Committee's members' Thanksgiving Holiday commitments, the Committee decided to cancel the TGIF, scheduled for November 25. Please watch the Bulletin Board, future issues of the Falls Forum and Karen's Weekly Reminders for upcoming events, which may be planned at our October/November meetings.

We would love to see more of our *newer* residents come out to our Social events. The Committee makes an effort to offer a nice variety of events through the year. We hope to see you soon!

The next Social Committee meeting will be held on Monday, October 10th at 10 am. Potential new members/residents interested in future events welcome to attend!

LRF Art League's
Black & White Exhibition
September 18, 2016

Above are a few pictures of the latest art show hosted by the LRF Art League's recent black and white art show.

Please stop in at the Clubhouse to see the artwork that LRF resident members of the LRF Art League have created. As well as the collaborative art piece they worked on in an joint effort.

You're invited...

Join us for coffee on...

Tuesday, October 11th,
at 10:00 a.m.

Meet and chat with
Manatee County,
Deputy Russ Younger,
our
Community Liaison Officer.

LRF Holiday Event

Sunday, December 4th,
Asolo Repertory Theatre

presents

“Guys and Dolls” tickets will go on sale starting
October 10th through November 16th.

The all-inclusive price of...
***\$85.00 per person includes**
includes a catered buffet luncheon, assorted
wines, tax, gratuity, excellent orchestra or mez-
zanine seats, matinee tickets, and backstage tour,
for the first 40 who sign up.

Please make checks payable to the...
LRF Social Committee

**The increased ticket price reflects
The Asolo Theatre’s increase in seat prices.*
