A Message from Your Board...Thinking Ahead, Working Together

Rod Hayden, President

Thanks to everyone who attended our Annual Membership Meeting on February 5th, 2026. Your participation matters, and it helps set the tone for a productive year ahead. I also want to extend thanks to the many residents who helped during the evening in a variety of volunteer roles, including our greeters and election inspectors.

At the meeting, four new members were elected to the Board of Directors: Wayne Johnson, Linda Cowett, Jerry Brantley, and Lori Klein. Following the meeting, the Board confirmed the officer roles, with Wayne Johnson to serve as Vice President, Jerry Brantley as Treasurer, Lori Klein as Secretary, and Linda Cowett as Director at Large. I was honored to be chosen to remain President. We appreciate the trust the membership has shown in the Board, and we are committed to keeping our work focused, respectful, and transparent.

One of the real strengths of our community is the number of residents willing to volunteer their time and talents. Many thanks to everyone who signed up to serve on our eight standing committees. Our committees do much of the practical work, and they offer residents a meaningful way to stay involved and help guide the direction of the community.

To strengthen communication and coordination between these committees, Board liaisons were also assigned. The liaisons' role is to stay connected with the committees, lend advice, and keep the Board well informed. Wayne Johnson will serve as liaison for Roads & Grounds and Pool, Linda Cowett for CRC and Landscape, Lori Klein for Buildings and Security, and Jerry Brantley for ARB and Budget.

Looking ahead, the Board will continue to hold regular monthly meetings on the second Friday of each month, at 2:00 PM. Members are always encouraged to attend. Hearing from owners helps the Board understand what matters most across the community, and your input is important.

By the time you read this, the replacement of the Clubhouse, Pool Annex, and the Gatehouse roofs should be nearly completed. It's unfortunate that the buildings and pool had to be closed at times, but it was for the safety of all. We appreciate your co-operation and understanding during this important project.

As we move into spring, several priorities are on the radar. The Board is interested in evaluating whether an electronic voting option could be appropriate for our community. This will require a careful review of legal requirements, internal procedures, and practical safeguards. We will take a measured approach and keep you posted as we learn more. We will also stay focused on landscape issues to maintain curb appeal, support property values, and reflect the pride we all have in our neighborhood.

On behalf of the Board, I offer my sincere thanks to the previous Board members, David Danilowitz, Diane Pezzimenti, and Dorie Parsons, for their dedication and service. Volunteer leadership takes time, energy, and commitment, and we appreciate what each of them contributed during their tenure.

Association Info

COMMITTEES

Architectural Review Board (ARB)

Mr. Jerry Brantley, Board Liaison
Chairperson - TBD

Meetings: Second Thursday of the month at 10:00am

Budget Committee

Mr. Jerry Brantley, Board Liaison

The recent Art League reception was well attended. Residents were excited and amused by many of the works highlighting our LRF community as well as the challenge project: Animals. Our thanks go out to those who generously donated to our scholarship fund for kids art camps. Enough was collected to support two scholarships! We are working on the other two. Both exhibits and our featured artist's work, Linda Lorenz, will be on display until the fall. Be sure to see it.

Also, Watercolor Art Classes begin February 25th and continue on Wednesday mornings until March 18th.

COMMUNITY MANAGER REPORT - ODED NEEMAN

2026 ANNUAL MEMBERSHIP MEETING – The LakeRidge Falls family, once again, showcased its remarkable community spirit and engagement during the Annual Membership Meeting. This was demonstrated by the impressive attendance of approximately 250 members, present either in person or by proxy, who displayed a strong sense of involvement and commitment that defines this beautiful Association. But before we continue to report on the meeting and its results, this is a great opportunity to extend our sincere gratitude to Mrs. Nancy Blair, Mrs. Maria Sproul-Cummings, Ms. Mitch Matte, and Mrs. Barbara Russo for their outstanding work in welcoming and admitting the large number of members who attended the meeting in person.

The main event of the evening was the election of a new Board of Directors. This year, there were four openings: three openings for a two-year term and one opening for a one-year term. After a lengthy and amazing job of the Inspectors of Election, which we will discuss in a second, the three new Directors who gained the most votes, and therefore will serve a two year-term, were Ms. Lori Klein, Mr. Wayne Johnson and Mr. Jerry Brantley. The Director who gained the most after these three was Mrs. Linda Cowett, who will serve a one-year term. The remaining seat will be filled by Mr. Rod Hayden, who will continue to his second year in office. On behalf of the community, congratulations to the newly elected Board of Directors, and may it be a successful and productive year.

Back to the Inspectors of Election, the Annual Membership Meeting's success was due in no small part to the diligence and professionalism of the Inspectors of Election, who were appointed by the membership to oversee and conduct the vote counting process. They were Mrs. Fern Rouleau, Mrs. Maria Sproul-Cummings, Ms. Mitch Matte, Mrs. Barbara Russo, Mr. Jim DuGranrut, Mr. Joe Stanley, Mr. Ray Weigand, Mrs. Jan Wright, Ms. Ann Marie Locascio, and Marie Avery-Withers. We sincerely thank each Inspector for their hard work and careful attention to detail during this important event.

Following the Annual Meeting, an organizational meeting took place in which the newly elected Board of Directors chose its officers. Mr. Hayden was elected to continue to serve as LakeRidge Falls' President; Mr. Johnson was elected as the Association's new Vice President; Mr. Brantley was elected to serve as the Association's new Treasurer; Ms. Klein was elected as the new Association's Secretary; and Mrs. Cowett was chosen to be Director at Large. We are sure all will join us in wishing all officers and directors all the best and success.

As a final note, I would like to take this opportunity to extend my heartfelt gratitude to Ms. Dorie Parsons, Mrs. Diane Pezzimenti, and Mr. David Danilowitz for her exceptional service over the past two years in serving this community. Their passion, commitment to teamwork, strong leadership, and outstanding financial skills, which have benefited the Association and saved it thousands of dollars. I would also like to express sincere appreciation to all the dedicated members of the various committees who completed their terms this year. Their efforts have contributed to what has proven to be a truly productive year for the Association. It has been a genuine pleasure collaborating with each of you over the past year, and I am confident that all members of the Association recognize and value the long hours you have devoted and your unwavering dedication to service.

FREEZE AND LANDSCAPING – It was very cold in this area last month. So cold that a former member of the community, Mr. Marty Collins, told us he had to open his fridge to get warm. If you don't believe us, just take a look at the frost coatings on the roofs and grass in the pictures below. On a serious note, the cold temperatures experienced during the nights have impacted some of the Association's grounds. More specifically, the grass. Here is how

LakeRidge Falls, like most communities, has several types of grasses, such as Saint Augustine, Bermudagrass, and Bahiagrass. While St. Augustine is more adaptable to cold weather, the Bermudagrass and Bahiagrass tend to go dormant when the temperature drops. This is mainly due to their natural survival mechanism, which is designed to conserve energy during harsh conditions. In practicality, what going dormant means is that these types of grass will turn brown, leading some to believe that the grass is dead or at minimum not being irrigated adequately. However, please note this is not the case. The University of Florida states that “this is a normal part of your lawn's winter dormancy.” Therefore, please don't be alarmed. All these areas should green up as soon as the nighttime temperatures get above 55 degrees. Or in other words, it should become green again during springtime.

On a related matter, freezing temperatures have the same effect on some plant materials, such as crotons, for example. Following a freeze, some plant materials may lose their foliage or simply turn brown. However, as the University of Florida determines, “while it may be ugly, the wilted, brown, and dead plant material associated with frost or freeze damage protects the rest of the plant that is still living.” As with Bermudagrass and Bahiagrass, this is simply a natural survival mechanism of such plants designed to conserve energy. Therefore, we ask that you please not prune or cut what you believe to be damaged plants in your front yards. We can ensure that, come springtime, most plant materials should recover.

POND EROSION – As promised, here are more in depth detail of the pond work that took place in January. A quick recap, the Board of Directors established in 2017 a Long-Term Pond Working Group (PWG). The PWG goal was “to study and make recommendations for remediation of current erosion problems as well as a long-term plan to stabilize and or minimize future erosion in our stormwater drainage ponds.” It took the group a few years to conclude its work, and in 2020, it produced a comprehensive, well-documented, and professional report.

Following on that report, the R&G Committee established a crew by the name of the Ponds Crew. In general, the Crew's task was to survey the Association ponds, identify erosions and other issues that may impact the structural integrity of the ponds, and measure the extent of the erosions along the edges of the ponds. Once concluded, the Ponds Crew was to issue a report to the Board of Directors, which would share the information and data collected, provide possible explanations for erosion causes, and recommend solutions to address issues discovered. After months of physically inspecting,

measuring, and documenting the ponds, the Crew submitted to the Board of Directors an impressive 135-page report of its findings and conclusions. It will be impossible to go through the entire 135 pages, but we will attempt to bring one highlight from each area where work took place.

POND # 3

The report states that “[c]ontinuing up the east side of the pond along the rear of the villas on Victoria Falls Circle it is clear that the unburied downspouts are causing washout cuts along the bank. Victoria Falls has 10 buildings up this side with two units apiece, for a total of 20 units... Aside from the erosion directly observed caused by the pipes, there is an average of 9”-13” undercut to the bank, similar to what we observed along the south bank. The bank here is probably going to start collapsing shortly like the southern shore... Again, it was noted the short backyards in this particular area. One large tree at the rear of 8119 evidenced a 30-inch void below the surface as did a tree similarly situated along Kariba.”

To address the issues along the 500 ft starting from the southeast corner of Pond 3 going north, over 1,200 linear feet of PondTech Planks, 50 coir logs, 50 cubic yards of soil, and 6,000 square feet of sod were used.

POND # 11

The report states that “[t]he lower east side and south side of this pond show serious ongoing erosion from berm run-off, as well as wall settlement inside the pond itself. Erosion from the berm appears to begin to wash out and/or undermine the concrete walkway in spots. In November 2020, rebar was driven into the bottom of this pond at a location off the south side of this pond to measure erosion going forward. The rebar was inserted 24 inches from the lip of the pond edge. On current inspection, the distance measured 38 inches from the same two spots.” To address the issues reported along the entire pond, over 4,200 linear feet of PondTech Planks, 140 coir logs, 150 cubic yards of soil, and 16,000 square feet of sod were used.

PONDS # 12 & 14

Pond 12 - The report states regarding the area along pond 12 where the work took place that it has a **“10” deep by 5’ wide swale.**” The picture ON emphasizes it best. To address this issue, over 30 linear feet of PondTech Planks, one coir log, 5 cubic yards of soil, and 200 square feet of sod were used.

Pond 14 - The report states regarding the areas where the work took place that “[t]he lawn area also looks as if it’s been dug up and there are numerous ankle-deep holes (L). 8 to 15ft swale between the homes (R). Cut in the bank between.... And swale between the houses (bottom).” To address the two issues, over 65 linear feet of PondTech Planks, three coir logs, 10 cubic yards of soil, and 400 square feet of sod were used.

Disclosure: I, Oded Neeman, Pinnacle's Community Association Manager assigned to LakeRidge Falls Community Association Inc., am a partial owner of PondTech Solutions LLC, the company hired to perform the work mentioned above. It should be noted that the Board Directors have overcome the possible conflict of interest by following the directives outlined in Florida Statutes Section 468.4335.

VICTORIA FALLS NEIGHBORHOOD PAINTING – As many have known, the Board of Directors, with the valuable assistance of the Architectural Review Board (ARB), amended Article 18, Painting, and its related appendices of Architectural Guidelines. Please click here to see the new guidelines. As reported, besides adopting color schemes and painting specifications, the guidelines provide for a new assigned schedule. As can be seen in the map, all members of the Victoria Falls Neighborhood, i.e., Victoria Falls Cir and Kariba Lake Terrace, are required to paint the exterior of their homes by the end of 2026. Of course, this work can't commence before an application is submitted to and approved by the ARB. Now, the purpose of this article is not only to set a reminder of this requirement, but also to explain that it is better to take action now on this matter rather than to wait for later on in the year.

As the past showed us, if most members wait until the last quarter of the year to apply to paint their homes, this would most likely lead to a bottleneck situation. That is would mainly be due to high demand for specific vendors and rain delays caused by the hurricane season.

Therefore, scheduling this project earlier ensures you have access to your vendor of choice and helps avoid potential delays as the deadline approaches. Remember, failing to submit and paint the exterior of a house within the time frame is a violation of the governing documents. Therefore, please, and again please, don't wait for tomorrow, as the famous saying goes, for what can be done today. Thank you so much for your attention and cooperation on this important matter.

2026-2028

ASSIGNED SCHEDULE

- i. Jan 2026 – Dec 2026 – Victoria Falls Neighborhood - Green
- ii. Jan 2027 – Dec 2027 – Stirling Falls Neighborhood - Orange
- iii. Jan 2028 – Dec 2028 – Sandstone Falls Neighborhood - White

Four Florida FOODIES Restaurant Ratings

Ratings by Fern & Bob Rouleau and Linda & Gunner Lorenz. These are our opinions for the particular day and time we went, which may change with different chefs and/or servers on a different day. In fact we HAVE found that the food has varied and would get different grades on different days, even ones we loved.

Joey D's - B+

3811 Kenny Drive, Sarasota

- Deep dish pizza is very good
- Good service - very attentive
- Large dining area
- Good variety
- Main dishes, sandwiches, pizza
- Subs very good
- Very large iceberg salad
- Cold in there - take a sweater

Jersey Mike's Subs - B

8210 Tourist Center Dr, University Park

- Sandwich shop
- Very clean
- Good quick service
- Subs made to order while u wait
- Everything was fresh
- Choice of rolls

Il Pacifico - C

1703 Main St, Sarasota

- No ambience
- Plenty of parking
- No table service at all
- Pizza was very thin and not fresh
- Sandwiches were ok
- Don't bother!

Chilis - C

6125 Exchange Way, Bradenton, FL

- Service good
- Food was mediocre
- Mac and cheese was soupy
- Typical chain menu and quality

Ventura's Italian Kitchen on Cortez - C

4805 Cortez Rd W.

- Varied menu - good selection
- Pizza joint
- Very slow service
- Food was ok

Small Things Like These
by **Claire Keegan**

March, 24th
7:00 PM
Grand Salon

In 1985 in the small Irish town of New Ross Ireland, Bill Furlong, a coal & fuel merchant and family man faces his busiest season, Christmas. Early one morning, while delivering an order to the local convent, Bill makes a discovery which raises serious questions about the real purpose of the convent, a training school for girls. During his search for answers, he must confront both his past and the complicit silences of a town controlled by the Catholic church.

Please join with us as our facilitator, Carolyn Arevalo, leads us through yet another spirited discussion of the book. New members are always welcome (even if you haven't read the book)! Feel free to bring your favorite beverage and if you choose, a light snack to share. Questions? Contact Barb Weigand - weigassoc@gmail.com or 317-385-3697.

Tuesday, March 24th - 7:00 PM - Grand Salon

LRF BOOK CLUB

The LRF Tuesday morning book group will be meeting on March 17th, at 11:15 am to discuss Correspondent by Virginia Evans.

The book is a critically acclaimed epistolary novel about Sybil Van Antwerp, a retired, 73-year-old divorced lawyer facing loneliness and blindness.

Everyone is invited to join in our invigorating discussions. Any questions, please contact Alida Gorin at 908 313 4067
