

A PICTURE BY MARY HOOD

A Message from Your Board...Thinking Ahead, Working Together

Rod Hayden, President

With a relatively light agenda and many residents traveling or simply enjoying the summer here, the Board chose not to hold its regularly scheduled July meeting. In many ways, it gave all of us a short break before another busy season begins.

July was also a special month as we celebrated our nation's 250th birthday. A big thank you to the Social Committee for a delightful 4th of July Potluck. Also, a sincere thank you goes out to our Community Relations Committee for decorating the Clubhouse grounds and waterfall area with an abundance of American flags. Their efforts created a very patriotic setting and gave us an opportunity to reflect on 250 years of freedom, sacrifice, service, and remembrance.

The Board will hold its next meeting on Friday, August 14, at 2:00 pm. As always, all members of the community are invited and encouraged to attend, either in person or by Zoom.

August also marks the beginning of our annual budget season. The Budget Committee will likely hold its organizational meeting sometime during the week of August 10. For those who may not be familiar with the process, members select their chairpersons, discuss the meeting materials and establish a weekly meeting schedule. The next two weeks, they begin to review the Association's operating expenses. Committee members work through 45 operating expense line items, including Landscaping, Roads and Grounds, Security, the Pool, the Clubhouse, Utilities, and Administration. The following weeks, they review our 19 reserve line items. These are the funds set aside for the future repair and replacement of major community assets. Lastly, the committee estimates the revenue the Association expects to receive. All these figures are refined as new contract information and updated estimates become available. We gratefully appreciate those who volunteer their time and experience to serve on the Budget Committee. Residents are welcome to attend all Budget Committee meetings.

In addition, another Board community survey is nearly ready for release. This survey will focus on two areas that may affect the 2027 budget - Outdoor Lighting and Landscaping/Mulching. The survey will contain nine questions and your responses will remain private, with the results reported only in summary form. The survey will be distributed in a familiar online format, so please watch for it and take a few minutes to participate. Your responses will provide the Board with valuable guidance as we consider community priorities.

August begins another active period for the Board and our committees. As always, thank you for staying engaged, sharing your thoughts, and helping us plan carefully for the future of Lakeridge Falls.

COMMITTEES

Architectural Review Board (ARB)
Mr. Jerry Brantley, Board Liaison
Chairperson - Mrs. Mary Cochran
Meetings: Second Thursday of the month at 10:00 am

Budget Committee
Mr. Jerry Brantley, Board Liaison
Chairperson - TBD
Meetings: TBD

Buildings Committee
Ms. Lori Klein, Board Liaison
Chairperson - Ms. Maria Herrmann
Meetings: Second Thursday of the month at 9:00 am

Community Relations Committee (CRC)
Mrs. Linda Cowett, Board Liaison
Chairpersons - Mrs. Sue Selvidio-Stanley & Mrs. Jolene Ruffo
Meetings: Third Friday of the month at 10:30 am

Landscape Committee
Mrs. Linda Cowett, Board Liaison
Chairperson - Ms. Annmarie Locascio & Mrs. Fern Rouleau
Meetings: First Tuesday of the month at 10:00 am

Pool Committee
Mr. Wayne Johnson, Board Liaison
Co-Chairperson - Mrs. Linda Lorenz & Mrs. Fern Rouleau
Meetings: Forth Wednesday of the month at 10:00 am

Roads & Grounds (R&G) Committee
Mr. Wayne Johnson, Board Liaison
Chairperson - Mr. Paul Hoffman
Meetings: Second Tuesday of the month at 11:00 am

Security Committee
Ms. Lori Klein, Board Liaison
CO-Chairpersons - Mr. Guenter Lorenz & Mr. Dan Meintel
Meetings: Third Thursday of each month at 10:00 am

Art League
Mrs. Becky Stevens, President
Meetings: Second Monday of the month at 1:30 pm

Social Committee
Mrs. Fern Rouleau & Ms. Leigh Salby, Co-Chairpersons
Meetings: First Monday of the month at 10:00 am

ART LEAGUE NEWS

The Art League has several Exhibits for you to enjoy over the summer. In the Multipurpose Room is PAISLEY AND PLAID. The artists expressed their response to this theme in a variety of imagery. Look for the Plaid on Mini Mouse's skirt, and on someone's fingernails. See the Paisley shapes in a horse's mane and the Paisley cat.

In the Activities Room is a collection of work called ARTISTS' CHOICE and the CHALLENGE PROJECT, artist-designed letters of the Alphabet.

In the Grand Salon, the CURIO CABINET display includes wood boxes from Alida Gorin's collection and a beaded box by Linda Morrison.

WATERCOLOR CLASSES are available on each Wednesday of July.

CHARGING E-BIKES IN THE GARAGE – Last month, we reported that a long-time member of the community shared an alarming news piece with us. The article, which was broadcast and published on ABC7 WWSB, spoke of “[a] family of seven...” that “...is out of their home after a lithium-ion battery charging for an e-bike sparked a fire in...” their house. As stated in the article, “[t]he family is safe, but the home is unlivable.” Source: <https://www.mysuncoast.com/2026/06/15/sarasota-county-house-fire-caused-by-e-bike-lithium-ionbattery/>

Now, it is no secret that e-bikes have become incredibly popular for commuting and recreation, but their lithium-ion batteries come with serious fire risks that many owners underestimate, especially when charging them in the garage. You see, lithium-ion batteries can experience thermal runaway, a rapid overheating process that may lead to fire or even an explosion. These fires burn extremely hot and can be very difficult to extinguish. Garages are particularly hazardous, especially in homes with shared roofs, because they often contain flammable materials and may lack proper ventilation.

Therefore, please follow these important steps to ensure your and your neighbors' safety:

- Avoid charging in the garage if possible and never charge in a confined space.
- If your garage is your only option, make sure to supervise the charging process.
- Treat charging time like cooking on the stove, stay alert and present.
- Keep the e-bike and charger at least 3 feet away from any walls, vehicles, or flammable items.
- Place it directly on a concrete floor rather than on flammable surfaces such as carpets.
- Use only the manufacturer-approved charger and avoid using cheap third-party ones.
- Make sure to have a fire extinguisher in the house.

Following the publication of the above, another long-time member of the Association, Mr. Harold Sabot, shared with us another safety measure to charge an e-bike and thus ensure your and your neighbors' safety: an **e-bike fire bag**. In simple terms, an e-bike fire bag is a special protective bag designed to store and/or charge lithium-ion batteries more safely because they are made out of multiple layers of fire-resistant materials that are designed to withstand high temperatures. It is said more safely because they are fire-resistant and fully fireproof or explosion-proof. As such, they are designed to buy some time rather than eliminate the risk of a house fire. Therefore, they should be used **with** the above safety measures and not instead of them.

Convenience should never come at the cost of safety. Taking a few extra precautions when charging an e-bike can prevent a devastating outcome. Thank you in advance for your attention and cooperation on this very important matter.

SOLICITATION – Last month also brought us yet another incident involving a contractor who attempted to solicit business in the community. In this incident, a contractor was recently added to a resident's approved vendor list after signing a legitimate contract with the resident. Instead of waiting for referrals or organic business, the contractor abused their “approved” status by sending a crew of four solicitors. It took a few minutes after their arrival before we started getting calls from residents who complained about their unsolicited door-to-door harassment.

With this in mind, please make note of the following points:

- Door-to-door solicitation is not allowed in the community.
- Being on the approved vendor list means the contractor is allowed to work if hired by a resident, not a permission to solicit business throughout the neighborhood.
- People who knock on your door and offer products and services are most likely trespassers.

While this time around we demanded they leave the community without delay, they only followed this directive once the Sheriff's Office was called. Therefore, LakeRidge Falls residents should NOT call the gatehouse or office and instead call the Manatee County Sheriff's Office's non-emergency number, which is 941-747-3011, to report such suspicious activity. If immediate assistance is warranted because of an injury or danger, please don't hesitate to call 911. Thank you for your attention and cooperation on this important matter.

FEEDING WILDLIFE – A couple of complaints were received recently regarding individuals who allegedly feed wildlife, such as turtles and ducks. Please note that both Florida Rule 68A 4.001 and the Association's governing documents strictly prohibit such activity! The main reason is obvious. Feeding wild animals may cause them to lose their ability to gather food naturally. Therefore, they become more and more dependent on humans, which may lead to property damage, endanger surrounding neighbors, the spread of diseases, increased animal families, and the creation of a nuisance environment. We, therefore, request all residents and their guests not to feed, intentionally or unintentionally, wildlife. This includes, but is not limited to, feeding birds/raccoons/turtles/ducks/fish with food or garbage, attracting wildlife by placing food or garbage, i.e., leaving pet food in the lanai and using birdfeeders and/or birdbaths, and placing food or garbage in a manner that attracts wildlife, i.e., putting garbage during garbage pick-up days without using a closed container.

Now, it is important to start that feeding wildlife also applies to squirrels...

While squirrels are not part of the Florida Fish and Wildlife Conservation Commission's (FWC) list of wildlife species that are prohibited from being fed, it's prohibited in LakeRidge Falls. Why? Besides the fact that the governing documents clearly state that feeding wildlife, including birds and squirrels, is not permitted and may create unforeseen problems.

- **Habituation** — Squirrels can lose their natural fear of humans, becoming bold or aggressive and increasing the chance of conflicts with pets such as dogs.
- **Disease** — Similar to the wildlife mentioned above, squirrels often carry ticks and fleas that can spread illnesses such as Lyme disease, typhus, and tularemia.
- **Property Damage** — Squirrels that become comfortable around homes are more likely to chew wiring, siding, soffits, and attic insulation in their search for food.

Squirrels may look cute, to some at least, but they are not and should not be treated as pets. Therefore, and please, and again please, don't treat them as such. We appreciate everyone's help on this super important matter and in keeping our community safe and beautiful for both residents and wildlife. Let's enjoy watching squirrels and other animals in their natural state... without handouts. Please, we ask all to assist us in protecting LakeRidge Falls' unique ecosystem and nature. Thank you in advance for your immediate and sincere attention to this matter.

FISHING & TRESPASSING – With the two articles above in mind, not once did we receive reports about individuals who toured the community for a spot to fish after somehow sneaking into the community. In the past, we explained in length why fishing in the community is prohibited, but today we would like to speak on the more obvious offense, which is trespassing. If a member and/or resident of the community notices someone or a group of people fishing in one of the Association ponds, please, and again please, don't confront this person or group.

Instead, please report the incident to the Manatee County Sheriff's Department on its non-emergency line at 941-747-3011. You see, only law enforcement has the authority and the means to force an unauthorized individual or group to leave the Association's property. With this in mind, and this should go without saying, if you feel immediate assistance is warranted because of an injury or danger, please don't hesitate to call 911. Thank you to all who reported the incident above, and please thank you for your attention and assistance on future incidents.

ANIMAL CONTROL – Unfortunately, we were informed of a couple of recent incidents involving pets. While one incident was reviewed as threatening, the other, unfortunately, resulted in a minor injury to a member of the community.

The Association governing documents, Exhibit “C,” Initial Restrictions and Rules, 2, Restricted Activities, (b) states that:

“The following activities are prohibited within the Community.... Raising, breeding, or keeping animals, livestock, or poultry of any kind, except that a reasonable number of dogs, cats, or other usual and common household pets may be permitted in a Lot (not to exceed two animals); however, those pets which roam free, or, in the sole discretion of the Board, make objectionable noise, endanger the health or safety of, or constitute a nuisance or inconvenience to the occupants of other Lots shall be removed upon request of the Board. If the pet owner fails to honor such request, the Board may remove the pet. Dogs shall be kept on a lease or otherwise confined in a manner acceptable to the Board whenever outside the dwelling, and the person walking the dog shall clean up after it. Pets shall be registered, licensed, and inoculated as required by law...”

In addition, Manatee County Animal Ordinance Sec. 2-4-11 (Dogs and Cats at Large; Direct Control) and Sec. 2-4-12 (Nuisance Dogs and Cats) state, in general, that:

Sec. 2-4-11: Dogs and Cats at Large; Direct Control

- No dog or cat may be “at large” (not under the owner’s control) on public property, streets, sidewalks, or on someone else’s private property without permission.
- Owners must maintain direct/physical control at all times — typically with a leash, cord, or chain (maximum 8 feet long) when the animal is off their own property.
- “At large” includes any dog or cat not under immediate and continuous restraint or supervision.

Sec. 2-4-12: Nuisance Dogs and Cats

- Cleanup rule: Owners must immediately pick up any feces left by their dog or cat on public property or other people’s private property.
- Noise rule: No dog or cat may create a nuisance by making persistent or repetitive noise (barking, howling, whining, etc.) that disturbs the peace. This includes:
 - Continuous noise lasting more than 10 minutes, or
 - Intermittent noise that totals more than 10 minutes within any 2-hour period.

Please, we urge all residents to take a moment to go over both the rules governing this community and the Manatee County Animal Ordinance. Also, please note that while nearly all incidents mentioned above are resolved within the community without the need to proceed with any further enforcement action, the same is not true with Manatee County’s Animal Services. As some residents may testify firsthand, reported cases by residents to Manatee County’s Animal Services usually end up with fees and/or corrective measures. Please help us keep this community safe. Please make sure to have control of your pet when walking on the street. Please make sure to clean up after your pet. And please, make sure your pet does not create persistent or repetitive noise. As with all other matters, thank you in advance for your assistance and understanding on this matter.

POOL SPA – This is a quick update that the pool spa is up and running again. Not to bore everyone with the facts, the driver for the pump went bad. In simple terms, the driver, as the name indicates, is the component that “drives” the pump by supplying the electrical power and control signals that make the pump motor run. So without a driver, the pump can’t work. While the bad news was that the spa didn’t work for about a week, the good news is that the driver was under warranty. The better news, as already shared, is that the spa is up and running again.

IRRIGATION STATION – Staying in the same technical area, we learned recently that the main Variable Frequency Drive (VFD), yes, a similar component as above, for an irrigation station went bad. In general, a VFD in an irrigation setting is an electronic controller that adjusts the speed of the irrigation pump motor to match the real-time water demand of the system. Its main goals are to ensure constant pressure control and energy efficiency.

While energy efficiency is self-explanatory, the significance of constant pressure control is a little bit more complex. However, in simple terms, the idea of having a system that softly starting/stopping while gradually increasing/ decreasing the water pressure, and then ensuring it remains consistent is extremely important. This is because water pressure fluctuation can mean no good irrigation coverage, i.e., too low; main irrigation line breaks/leaks, i.e., too high; and/or mechanical stress on the pumps and motors. Now, the bad news, as already mentioned, is that we lost the main VFD. The good news, however, is that the system has two VFDs. So, in this regard, the system continued to work almost as normal without significant impact on the day-to-day operation of the irrigation system.

The better news is that the VFD, which is an expensive component, was under warranty, as with the spa's driver mentioned before. Therefore, Water Equipment Technologies of Southwest Florida (WET), the Association's irrigation station pump equipment maintenance company, was able to file the warranty claim, receive the new VFD, and install it within a couple of weeks.

DROUGHT – On a related matter, we are going through an extended period of drought. Therefore, it is noticeable that there are several areas with patches of brownout sod and some areas where the sod is struggling. Yes, there are several reasons why yellow/brown patches, i.e., hotspots, appear, such as poor irrigation coverage, soil composition, insects, diseases, type of grass, and sun exposure. However, an extended drought acts as a catalyst for all of them. For example, chinch bugs, which are an insect pest, tend to feed on St. Augustine grass during the hot and dry times of the year. The dryness caused by the drought makes the Association's grass a fruitful ground for their infestations.

With this in mind, BrightView Landscape is making sure to run the irrigation to its fullest capacity. However, any irrigation system is only a supplemental tool for rainfall. After all, BrightView Landscape can't program the system to irrigate all grounds at the ideal time of the day, which is early morning. Moreover, the Association is limited by the amount of water it can use per the water permit it is governed by and issued by the South Florida Water Management District (SFWMD), a governmental agency that regulates Florida's water resources.

Nevertheless, rest assured that the Association is doing everything within its capacity to battle the drought. We need the rain. We need the rain for more than one day. But once the rainfall comes, we should be in the clear. Until then, we wish to thank you once again for your understanding in this matter.

SHORELINE WEEDS - The drought also brought, paradoxically, a rapid growth of weeds along the association ponds. Here is why. As mentioned in the past, lower water levels expose shoreline mudflats, which gives weeds more terrestrial areas to spread without being submerged. Also, as mentioned in the past, nutrients become more concentrated in smaller water volumes. Then, shallower edges favor fast-growing invasive weeds, such as alligator weed, torpedograss, and others.

Therefore, Aquatic Consulting, Inc., LakeRidge Falls' ponds and mitigation maintenance company, is scheduled to be on-site once again to target specific areas where growth is more noticeable. Once rain is here, the raised water level should assist in "addressing" some of the upland weeds that spread into the shorelines. That said, residents may notice temporary changes in pond appearance as treatment begins, mainly brown shorelines as the weeds are dying. Please, avoid attempting to treat shoreline areas yourself and instead report any unusually dense growth to the Association so it can be reviewed during upcoming maintenance visits. Thank you in advance for your attention to this matter.

SECURITY COMMITTEE – As stated, the LakeRidge Falls’ Security Committee’s mission statement “is to assist, advise, and support the Board of Directors of the LRF Community Association with implementation and oversight of our Security Policies and practices.” Therefore, it should not come as a surprise that the Security Committee is consistently working to recognize proactive and effective ways to improve residents’ sense of security.

As part of this effort, the committee established a task force composed of two of its members at the time, Mr. Joe Stanley and Mr. Doug Trussoni. Their task was to research and study the Associations’ security cameras’ functionality and coverage. After a careful study that included, among other things, a complete on-foot survey of the Association perimeter walls, Mr. Stanley and Mr. Trussoni presented a thorough report. To make a long story short, the report presented a recommendation for the Board of Directors to consider the installation of three posts and cameras along the perimeter wall of the community at the

- a) Southeast corner of Pond 11, facing the Walmart Shopping Plaza,
- b) The northwest point on Tuttle Ave, and
- c) In proximity to the Mi Pueblo pedestrian gate.

Please see the map to the right.

Acting on it, the committee presented this recommendation to the Board of Directors back in May. As you can guess by reading this piece, the Board of Directors approved the recommendation. As you might also guess, we are sharing this story because we are more than happy to share that the three posts and cameras were installed last month, as can be seen in the pictures below.

With the above in mind, this initiative reflects the committee’s commitment to addressing resident concerns through practical, visible improvements. The new cameras will serve as an important deterrent and contribute to a greater overall sense of security throughout LakeRidge Falls.

This is a good time to thank the current and former members of the Security Committee, Mr. Guenter Lorenz, Mr. Dan Meintel, Mr. Harold Sabot, Joe Stanley, and Mr. Doug Trussoni, for their thorough research and excellent work in continuing to build a safer and stronger LakeRidge Falls community.

COMMUNITY RELATIONS COMMITTEE

A SALUTE TO THE JULY 4TH FLAG BRIGADE VOLUNTEERS!

Did you notice the American Flags that decorated our community for the Fourth of July holiday weekend? The placement of flags was especially significant since we celebrated the 250th anniversary of our nation. The Community Relations Committee extends its thanks to the following residents who braved the warm temperatures to place (and remove) the flags throughout the grounds of LakeRidge Falls so that we all could enjoy them:

- Claudina Ashleman
- Betty Curry Johnson
- Wayne Johnson
- Dwayne Lamprecht
- Wanda Lamprecht
- Don Neuberger
- Fern Rouleau

TOGETHER, YOU MADE OUR 250TH CELEBRATION BRIGHTER. THANK YOU!

Four Florida FOODIES Restaurant Ratings

Ratings by Fern & Bob Rouleau and Linda & Gunner Lorenz. These are our opinions for the particular day and time we went, which may change with different chefs and/or servers on a different day. In fact we HAVE found that the food has varied and would get different grades on different days, even ones we loved.

The Waterfront - A

111 S. Bay Blvd, Anna Maria Island

- Very nice ambience and beautiful view
- Excellent service
- Seating is inside and outside
- Food is delicious
- Reasonable prices
- No reservations -gets very busy

Cha Cha Coconuts - B

417 St. Armands Circle, Sarasota

- Service is good
- Inside and outside tables
- Music on several days
- Jamaican style dishes
- Caribbean rustic decor
- Food is good
- Prices are very reasonable

Food Truck Wednesday - B to C

1560 Lakefront Drive

- Only October through May
- The trucks change every week. Previous menus have featured Southern BBQ from Southern Smoked by JP, tacos, Philly cheesesteaks, and seafood, Asian, Mexican, desserts and more
- Live music performances

Florence and the Spice Boys- B

257 N. Cattleman Rd, Sarasota

- Pretty place
- Very noisy
- Mediterranean food
- Good service

Tortilla Flats - C

5215 University Pkwy #106

- Order at the counter
- Very casual
- Typical fast food Mexican choices

WINE AND FICTION BOOK CLUB

A Land Remembered
by **Patrick D. Smith**

In 1858 after failing at farming in Georgia, Tobias MacIvey arrives in the Florida wilderness to start a new life with his wife, Emma and infant son, Zech. Like many early pioneers, their life is filled with hardship and struggles. It ends two generations later in 1968 with Solomon MacIvey, who realizes that the land has been exploited far beyond human need. The sweeping story that emerges is a rich, rugged Florida history featuring a memorable cast of crusty, indomitable Crackers battling wild animals, rustlers, Confederate deserters, mosquitoes, starvation, hurricanes, and freezes to carve a kingdom out of the swamp. But their most formidable adversary turns out to be greed, including finally their own. Love and tenderness are here too: the hopes and passions of each new generation, friendships with the persecuted blacks and Indians, and respect for the land and its wildlife.

Please join us as Bridget Hannibal, our leader for the evening, leads us through an interesting discussion of the book that has become a Florida favorite.
