# A Message from Your Board...Thinking Ahead, Working Together

*Rod Hayden, President*

October brings hope of cooler weather and less humidity as we begin welcoming back many of our seasonal residents who have been away for the summer. The restaurants and beaches are not yet crowded, so it's a great time to enjoy the beautiful Sarasota area.

At its September meeting, the Board approved the Resolution authorizing Lakeridge Falls to offer electronic voting, with the goal of having it available for our 2027 annual meeting and elections. The next step will be at our October 9th meeting, when the Board plans to review an implementation approach. Electronic voting will be entirely voluntary. It will provide a convenient option for owners, while also simplifying ballot handling and tabulation.

Our Budget Committee has been very busy developing recommendations for the year 2027. This is detailed and time-consuming work, and I want to thank the Committee members for the many hours they have devoted to reviewing expenses, reserves, contracts, and priorities for the coming year. Their recommendations are also expected to come before the Board in October. A special thanks as well to Oded, whose experience and knowledge of our operations and budget history continue to provide valuable guidance throughout the process.

We would like to encourage more owners to sign up to receive official Association notices electronically. Electronic delivery is faster, more efficient, and helps reduce printing and postage costs. If you have not already completed the Association's Consent to Receive Electronic Notices form, please consider doing so.

Information sessions are planned concerning our ponds and the possible future use of No-Mow Zones around retention ponds. These sessions are intended to provide background, explain the issues being considered, and give residents an opportunity to learn more. Dates, times, and Zoom information have been posted, and we encourage anyone interested to participate.

As our fall season gets underway, thank you to everyone who volunteers, attends our meetings, participates in community activities, or simply takes the time to stay informed. Whether you are here year-round or returning for the season, your involvement helps make Lakeridge Falls the community it is.

As always, the Board appreciates your support and participation.

# COMMUNITY MANAGER REPORT - ODED NEEMAN

**E-VOTING** – During its September meeting, the Board of Directors approved a resolution titled "Resolution Authorizing Electronic Voting." A copy of the resolution is posted on the Association's website, under the Policies/Rules tab, and on the Portal, under Resources. So what is it all about?

Well, the Board of Directors wishes to introduce electronic voting as another method for members to exercise their right to participate in the Association's governing matters. In doing so, the Board of Directors hopes to capitalize on the benefits this voting method has to offer:

- ***Convenience*** – members can cast votes securely from a computer, tablet, or smartphone without needing to attend a meeting or mail a paper ballot.
- ***Participation*** – members' turnout should increase as roadblocks that are faced by those who travel, live abroad, and/or experience mobility limitations will be eliminated.
- ***Time*** – votes can be tallied quickly and with reduced risk of human error, which means less time sitting and counting votes during annual meetings.
- ***Cost Savings*** – Less paper, printing, and mainly postage are required.

A point to be made. This is only an additional option for members to utilize to cast their vote. ***Not a replacement, but rather an addition.*** In other words, members who wish to cast their votes using paper ballots, proxies, and/or in person would still be able to do so.

No member will be required to vote electronically if they don't consent to it.

With this in mind, please note that the Board of Directors will introduce the mechanism of this new addition will coexist with the Association's current voting methods. The goal is simply to give every owner more flexible ways to participate. That said, your Board of Directors always welcomes your input and therefore encourages all members to participate and voice their opinions. Thank you in advance for your attention to this matter.

**SECURITY CAMERAS/DOORBELLS** – The following is a recommendation by the Security Committee, following the several Home Security & Theft Prevention presentations that were held at the clubhouse by the Manatee County Sheriff's Office. During these meetings, Manatee County Sheriff's Deputies encouraged attendees to consider installing security cameras, mainly visible ones, as a means of effectively deterring or preventing unwanted activities. While the Association can't provide such products and services, the committee felt it would be a disservice to encourage residents to install them without offering some sort of assistance/guidance. Therefore, after several months of research that intended to better familiarize themselves with the current products and services available to residential customers, the Security Committee is ready for this important endeavor.

So first, let's start with the obvious. The Security Committee encourages residents to consider installing camera doorbells and/or security cameras in accordance with the governing documents and Article 29 of the Architectural Guidelines:

***Exterior-mounted security cameras are required to be accompanied by a sign conspicuously posted that clearly states that a video surveillance system has been installed for the purposes of security on the premises. The location, number, and color of such cameras shall be as inconspicuous as possible in the judgment of the ARB. Video doorbells can be installed without prior approval by the ARB as long as a security window sticker or sign is clearly displayed indicating the house is protected by an audio/video surveillance device.***

*Continued on page 6*

Secondly, residents are encouraged to contact the Security Committee chairpersons, Mr. Guenter Lorenz and/or Mr. Dan Meintel, or me at **CamHelp@LakeRidgeFalls.org** with any questions or for assistance. This includes assistance with understanding the Architectural Guidelines, filling out the Architectural Review Board (ARB) Form, sharing the information the committee obtained about the camera doorbells and/or security cameras, available service providers, etc.

***Please note that neither the Association nor any of its representatives makes any representations, warranties, or endorsements regarding any specific products or services that may be available. Any information provided is offered solely as general guidance and shall not be construed as advice, a recommendation, or an official position of the Association.***

Remember, together we can keep LakeRidge Falls safe. Thank you in advance for your attention and cooperation on this important matter.

**HYDROSTATIC PRESSURE** – During a routine inspection of the community, a small bunch of oversprayed/painted mulch caught my attention. Why? Hydrostatic pressure.

Often referred to by some… actually by no one besides me… as the Mysterious Cause of Leaks, hydrostatic pressure is a significant cause of water leaks in Florida. As the name given to it by me may indicate, many residents are unaware of this physical process that causes water to get inside your house without you knowing where it is coming from. Please allow me to explain by starting where most stories should start… the beginning.

We regularly get calls from homeowners dealing with water leaks. The first suspects are usually a rusty roof nail, an unsealed window, a broken water line, or a crack in the stucco. Therefore, members often ask us for referrals to roofers, plumbers, painters, or general contractors to locate the source of the leak. Once those professionals rule out the source within their area of expertise, attention turns to the irrigation system. When that gets ruled out too, frustration sets in. That's usually when we learn the cause is hydrostatic pressure, especially after heavy rain.

The boring, yet simple (not professional), explanation of hydrostatic pressure in our case is the force a liquid (water in our case) exerts sideways and upward simply from the weight of the liquid (water) above or around it.

Florida has a high water table, i.e., very close to the surface. When heavy rains occur, rainwater can drain so much before it meets the water table. At this point, the weight of the rainwater pushes on the water already in the ground (water table), causing water to go out/upward. Picture a stack of five books. The bottom book "feels" the weight of the four books stacked on top of it. Water behaves the same way: the water table "feels" the added weight of the rainwater above it, and that pressure forces water sideways and up, including toward the nearest path of least resistance, which is often the foundation of your home…

*Continued on page 7*

During heavy rain, this pressure pushes water directly toward your house foundation. If your stucco is porous because it wasn't properly painted or if normal settling has created micro-cracks or gaps, water can work its way inside. And here's the key detail: this usually happens underground, about a foot or two below ground level. Which brings me back to where I started.

Remember that patch of over-sprayed mulch?

Over-sprayed mulch is a strong hint that a house was spray-painted rather than roller-painted. More importantly, this is an indication that the stucco below ground level was not exposed, and therefore never painted. In other words, there's a good chance the house in the photo has a foot or more of unwaterproofed stucco along its base, making it a strong candidate for a future hydrostatic pressure leak.

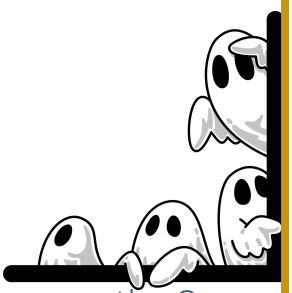

Think about it for a second. Homeowners invest serious money to waterproof their homes by getting new roofs, installing hurricane-impact windows, using premium paint, etc. But all this can go to waste if a painter fails to expose and paint the stucco along the base of a house. This is why LakeRidge Falls Exterior Painting Specifications, under the Architectural Guidelines, Page 27, directs homeowners to ***"[e]xpose all stucco covered by soil and/or mulch."*** An easy step to take, yet can be a very expensive one to overlook, as experienced by several members in the community.

Please, the Architectural Review Board (ARB) worked very hard not just to introduce you to new, fresh, and modern painting standards. It also consulted with experts to ensure the painting job achieves its actual goal, which is to waterproof the house. Please take advantage of the hard work of your ARB members. Follow the specifications they provided you. It will not only preserve the architectural integrity, harmonious design, and aesthetic principles of the community, but also protect your house from the Mysterious Cause of Leaks.

**LANDSCAPE ENHANCEMENT ON LAKERIDGE BLVD** – It might have been very hard to miss the landscape work that took place along the Blvd last month. As part of the Long-Term Landscape Plan, BrightView Landscape, the Association's landscape maintenance company, was on-site enhancing three landscaping beds along LakeRidge Blvd near the clubhouse. Because we all love history, here is a short recap of this work.

Back in 2017, a Long-Term Landscape Group was established to develop "a long-range plan for the Community landscaping infrastructure." That is, the Group was to create a long-vision landscape architecture design to achieve a unified environmental and aesthetic look for LakeRidge Falls' common landscape areas (i.e., as opposed to members' Lots). The Group's first task, thereafter, was to establish a core set of guidelines for its vision, which are:

- Establish a 10-Year-Plan;
- Use Florida-Friendly and Tropical Plants;
- Utilize easy-to-maintain plant material;
- Create a Park-like Like Setting;
- Avoid Queen Palms while using more Foxtail and Pygmy Palms;
- Acknowledge that Oak Trees are here to stay;
- Follow the notion that Less is Better;
- Ensure the Tier Effect continues throughout.

Following the establishment of the plan's pillars, the Group went to work. Over four years, the Group worked closely with West Bay Landscape, which was later bought by BrightView Landscape, Architectural Landscape Designers, Account Managers, and Arborists, on a detailed and comprehensive plan. Once concluded, the Group presented its final report to the Board of Directors, which adopted it thereafter. This will be a good time to remind and encourage all residents to take a few minutes to read the full report, which is posted on the Association's website under the tab "Special Projects" and in the Association portal.

*Continued on page 8*

Back to the enhancement work performed last week, the Landscape Committee reviewed and thereafter recommended, and the Board of Directors accepted, executing the three landscape beds mentioned above. That said, BrightView did an amazing job boosting the total appeal of the community. More importantly, it is yet another clear step toward where the Association wants to go while following a responsible fiscal approach.

**FERNS AND POTHOS** - Speaking of landscape matters, it is hard to miss the impressive selection of fern or pothos plants that large home improvement stores and local nurseries have to offer. Therefore, it is not a surprise to get them as a gift for housewarmings, holidays, dinner invites, invitations, or any other special occasion. That said, it is often the case that those plants get so big that residents decide they are taking too much space in the house and therefore place them in a nice pot outside the house in their lanai, yard, or entryway.

And indeed, LakeRidge Falls' Architectural Guidelines, Article 8, Exterior Decorative Objects, allow it, as it states:

***"Homeowners in Stirling and Victoria Falls Neighborhoods are allowed to place up to three exterior decorative objects. Sandstone Neighborhood homeowners may place up to two exterior decorative objects. These objects may include garden statues, garden flags, plant pots and water features without prior approval by the ARB provided that those objects are within the permitted size, [see #3 below] are placed only in the front landscaping bed and are not vulgar, offensive and or obscene in nature as judged by the ARB."***

So what is the problem? Well, they are invasive. Highly invasive.

You see, while there is no problem with placing them outside their house as long as it is done based on the guidelines, the problem starts when residents fail to maintain such pots. In two recent incidents, BrightView Landscape, the Association's landscape maintenance company, had to attend yards that were overtaken by these two plants. Once pothos or ferns escape their pots, they can rapidly colonize landscape beds, climb walls, choke out desirable plants, and even spread into neighboring properties. Therefore, please remember to:

- Keep these plants strictly confined to their pots.
- Trim them regularly.
- Monitor that they are contained inside the pot.
- Remove them if they become too large or difficult to contain.

POTHOS

FERNS

Once they begin invading the landscape, they cease to be "decorative" and become a maintenance and compliance issue. More importantly, it causes unwarranted expenses.

So please, a little proactive care protects the community landscaping standards. If you currently have pothos or ferns outside, please take a moment this week to inspect and care for them. Thank you in advance for your attention and assistance with this important matter.

# BOOK CLUBS

## WINE AND FICTION BOOK CLUB

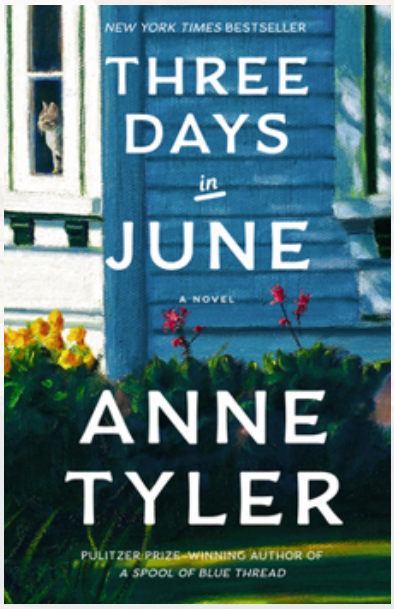

October 27th
7:00 PM
Grand Salon

**Three Days in June**
by **Anne Tyler**

Gail Baines is having a bad day. To start, she loses her job - or quits, depending on whom you ask. Tomorrow her daughter, Debbie, is getting married, and she hasn't even been invited to the spa day organized by the mother of the groom. Then, Gail's ex-husband, Max, arrives unannounced on her doorstep, carrying a cat, without a place to stay, and without even a suit. But the true crisis lands when Debbie shares with her parents a secret she has just learned about her husband to be. It will not only throw the wedding into question but also stir up Gail and Max's past.

Please join us and our facilitator, Ann Murray, as we share our viewpoints on the authors' latest book. New members are always welcome - even if you haven't read the book! Feel free to bring your favorite beverage and a snack or dessert to share:

**When**: Tuesday, October 27th **Time**: 7:00 PM **Where**: Grand Salon

## LRF BOOK CLUB

***The LRF Tuesday morning book club will meet on Tuesday, October 20th at 11:15 AM. This month's book is Atmosphere by Taylor Jenkins Reid.***

***We typically meet the third Tuesday of the month.We welcome new members. Come try us out. We have lively and inspiring discussions.***

***The November book will be: I See You Called in Dead by John Kennedy. In December, we pick new books. In January, the book is Automatic I See You Called in Dead by Annalee Newirtz.***

***Any questions, please contact Alida Gorin at 908 313 4067***

# Four Florida FOODIES Restaurant Ratings

Ratings by Fern & Bob Rouleau and Linda & Gunner Lorenz. These are our opinions for the particular day and time we went, which may change with different chefs and/or servers on a different day. In fact we HAVE found that the food has varied and would get different grades on different days, even ones we loved.

**BubbaQue's BBQ - C+**
6310 53rd Ave E, Bradenton
- Just open 3 weeks
- It's a chain
- Typical BBQ joint
- Good selection of meals
- Reasonable prices
- Decent size portions
- Sides ok - fries not crispy
- Quick service
- Food decent but nothing more

**Ciao Bella @ Organic Farmer's Table - B+**
14 N Lemon Ave, Sarasota
- Inside and outside dining
- Vintage looking ambiance
- Good variety in menu
- Good service
- Food was very good

**Mediterraneo - A**
1970 Main St, Sarasota
- Excellent service
- Nice variety and several specials
- Bread basket
- Free Appetizers - bruschetta with tomatoes
- Food excellent
- Noisy
- Inside and outside seating
- Can be pricey

**Fin and Tonic - C+**
6747 S Tamiami Trl, Sarasota
- Service was excellent
- Large room with modern decor
- Food was only ok
- Do not expect anything when you tell them it's an occasion
- Pricey considering the quality or lack of

**Bonnie Jean Bar & Grill - C**
7310 Tara Preserve Lane, Bradenton
- Food took a long time
- Bar food
- Fries are ok
- Food is mediocre
- Wed is game night
- Very noisy

## LRF Resident Selected for Honor Flight Mission XXV - October 20th, 2026

Cheryl Brandi, CDR, NC, USN, RET, and LakeRidge Falls resident, received word that she has been chosen to participate in the upcoming Honor Flight for Sarasota area military veterans. This honor celebrates America's veterans by inviting them to share in a day of honor at our nation's memorials in Washington, D.C. Honor Flight Mission XXV will depart in the early morning from Sarasota-Bradenton Airport (SRQ) on Tuesday, October 20th.

Cheryl entered the Navy as an Officer Candidate Hospitalman in July 1972. In 1974, she graduated from the University of Wisconsin-Eau Claire with a bachelor's degree in nursing. As a commissioned Ensign, she began her Navy career at Naval Hospital Orlando.
Her career took her to duty stations around the globe from the US to Argentina, Newfoundland, Canada and Japan. Throughout her career, Cheryl served in a variety of clinical and administrative roles in hospital and clinical settings.

While stationed at Naval Hospital Great Lakes, Cheryl completed a master's degree in nursing at Loyola University in Chicago in 1985. From there, she served at the Naval Hospital Oakland, California, then abroad to the Naval Hospital Yokosuka, Japan and finally to Navy Medical Center San Diego.Cheryl retired in February 1996 at the permanent rank of Commander.

If you would like to write a note of congratulations to share with Cheryl, you may drop notes in the envelope near the community bulletin board or direct them to Betty Curry Johnson at bcj1-email@usa.net no later than Saturday, October 17th.

### Be a Part of the Fun at SRQ
### Welcome Home Celebration for Honor Flight Mission XXV

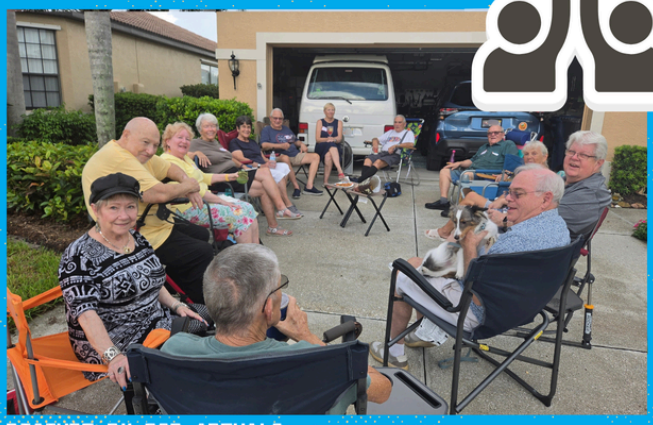

Tuesday, October 20 – 8:50 PM

You are invited to join with other Sarasota area residents in welcoming home veterans (and LakeRidge Falls resident, Cheryl Brandi) who are a part of Honor Flight Mission XXV. Come in a celebratory mood. Wear red, white, and blue and bring signs and small flags. You'll be together with a cheering, grateful community to honor our veterans.

The flight is scheduled to arrive at 8:50 PM. Plan to arrive at the terminal by 8:00 PM to account for airport parking and walking to the terminal. All are welcome to participate in this very memorable event.
